

Prompt lists for bulk run

Upload one of these JSON files in the app sidebar under **Bulk run · Upload prompt list (JSON)**, then click **Run Bulk**.

Format

A JSON **array** of objects. Each object can have:

Field	Required	Description	prompt	Yes	The search query to send to each LLM.
country	No	Geo for the request (e.g. "us", "uk", "de", "fr"). If omitted, the app uses the country selected in the sidebar.			

Example

```
[
  { "prompt": "What tools monitor search results in LLMs?",
    "country": "us" },
  { "prompt": "Best CRM for startups", "country": "uk" },
  { "prompt": "Top proxy providers" }
]
```

Files

- **demo-prompts.json** · Short 3-prompt demo.
- **batch-prompts.json** · Larger set (~20 prompts) for brand/SEO/visibility-style queries; duplicate and edit to build your own batch.
