

API For Your LLM · Logical Flow

· Project Overview

A FastAPI REST API wrapping a local Ollama LLM (Mistral) with API key authentication and a credit-based usage tracking system.

· Complete Logical Flow

```

·   ·   ollama.chat(prompt)   ·
·   .....                   ·
·           ·                 ·
·           ·                 ·
·   Return JSON Response     ·
·   { "response": "generated text" }
·
·   .....

```

· Credit System

```

API_KEY_CREDITS = {
    "key1": 10,    ... 10 requests remaining
    "key2": 5,    ... 5 requests remaining
}
Each successful request: credits -= 1
Credits == 0: 401 Unauthorized

```
