

DevLaunch Discord Bot

A **Discord bot** for server analytics with **message storage**, **AI-powered summarization**, and **Q&A** over message history.

· Features

- **Message Logging** · Comprehensive metadata capture for all messages
 - **History Retrieval** · `!history` with filters (user, channel, timeframe)
 - **AI Summarization** · `!summarize` filtered messages with OpenAI
 - **AI Q&A** · `!ask` questions about message history with LLM context
 - **Admin Controls** · Permission-checked commands
 - **PostgreSQL** · Persistent message and metadata storage
 - **Discord Embeds** · Rich formatted responses
-

.. Architecture

· File Structure

| File | Purpose | |-----|-----| | `bot.py` | Main bot with commands and message logging (475 lines) | | `main.py` | Entry point | | `database.py` | PostgreSQL connection and queries | | `llm.py` | OpenAI integration for summarization and Q&A | | `utils.py` | Helper utilities | | `init_db.py` | Database initialization | | `reset_db.py` | Database reset utility |

· Getting Started

Prerequisites

- Python 3.10+, PostgreSQL, Discord Bot Token, OpenAI API key

```
cd DevLaunchDiscordBot
uv sync      # or: pip install -r requirements.txt
```

Environment Variables (.env)

```
DISCORD_TOKEN=...
```

```
OPENAI_API_KEY=sk-...  
DATABASE_URL=postgresql://...
```

Run

```
python bot.py
```

· Commands

Command	Description	Access
<code>!history [user] [channel] [time]</code>	Retrieve past messages with filters	All
<code>!summarize [filters]</code>	AI summary of filtered messages	Admin
<code>!ask <question></code>	Ask questions about message history	Admin

Time Filters

1h (1 hour), 24h (24 hours), 7d (7 days), 30m (30 minutes)

· Logic Flow

- 1 **Message arrives** · Bot captures full metadata and stores in PostgreSQL
 - 2 **Command received** · Parse filters (user, channel, timeframe)
 - 3 **Database query** · Retrieve matching messages
 - 4 **AI processing** (for summarize/ask) · Context injected into OpenAI prompt
 - 5 **Response** · Formatted Discord embed sent to channel
-

· Dependencies

`discord.py`, `python-dotenv`, `asyncpg`, `openai`
