

Streamlit Intro App

A simple **data dashboard** built with **Streamlit** for CSV analysis and visualization · perfect for learning Streamlit basics.

· Features

- **·CSV Upload** · Drag-and-drop file upload
 - **·Data Preview** · View first rows of uploaded data
 - **·Summary Statistics** · Automatic descriptive statistics
 - **·Column Filtering** · Select specific columns to display
 - **·Chart Generation** · Interactive line charts
-

· Getting Started

```
cd Streamlit-Intro-App
pip install streamlit pandas
streamlit run main.py
```

· Logic Flow

- 1 **Upload** · User uploads a CSV file via drag-and-drop
 - 2 **Preview** · First N rows displayed as a table
 - 3 **Statistics** · `df.describe()` shows summary stats
 - 4 **Filter** · User selects columns to focus on
 - 5 **Visualize** · Line chart generated from selected data
-

· Dependencies

streamlit, pandas
